"We listen to our Doctors. With over a million successful cases and 1,000 years of combined experience, we are a resource you can count on every day. We specialize in PFMs, Captek, KDA Foil Veneers, KDZ Zirconia, Implants, Gold, and Temporaries. Most doctors send their work to 3 or 4 different labs for these products. Our doctors send us all their work because of our experience and great service, and the benefit of our 5 day turnaround on your restorations."
